

PUBLIC WELFARE EXHIBIT TO BE ATTACK ON HONOLULU TENEMENTS

Illustrated by especially prepared maps, condensed in statistical form, diagrammed and photographed, the tenement circle of Honolulu will be presented to Honolulu's residents on the evening of February 26, when the doors of the Public Welfare Exhibits are opened in the Palama Settlement gymnasium.

The periphery of this circle lies within a radius of three-quarters of a mile from the Palama Settlement itself. It represents the congested tenement district of the city. It was not until the health statistics of the city were cast up that the relation of this district to the rest of the city was fully realized. Now that they have been and the results have been found to be so striking, the exhibit which has arisen out of them promises to be the most interesting, as well as the most important, of the many which will be on the floor that night.

Great maps have been prepared, with every tuberculosis case in the city for the past year or so, marked by a pin. Within this circle they are almost black, so thick are they, but they gradually dwindle in number until on the outskirts merely isolated cases appear. Every resident will be able to tell, by a glance at this map, just the relation of his neighborhood to the tuberculosis infection, but the thing that will impress him most of all is that 63 per cent. of all the cases occur

SEN. BRISTOW THINKS HIS PLAN WILL RESTORE MERCHANT MARINE

Senator Bristow of Kansas has introduced a bill in Congress providing for the tolls for the use of the Panama Canal, which will attract a good deal of attention. He is a member of the Committee on Inter-oceanic Canals and will endeavor to have this bill enacted at this session of Congress.

After debating the Canal Zone and the Panama Canal, in section 1, the bill provides, in section 2, for reducing the membership of the Isthmian Canal Commission, after January 1, 1913, from seven to three, one of whom shall be a member of the Corps of Engineers of the Army, another a sanitary officer experienced in sanitation in the tropics, and the other a civilian. This commission will have control of the operation of the canal, after its completion, and the government of the Canal Zone. Section 3 fixes a toll of \$1 per net registered ton for all ships using the canal, but provides that all American ships whose owners agree that such vessels may be used by the United States in time of war as auxiliary cruisers shall have a rate of 50c per ton, and all ships engaged in the coastwise trade of the United States, on the same condition, 25c per ton. Senator Bristow constructs the treaty with Great Britain not to forbid such reductions for American vessels. Vessels in ballast, without cargo, are given a reduction of 40 per cent from the

ary Stinson, Secretary Meyer and Senator Wetmore of Rhode Island with Colonel Co by as executive officer and Mr. Poling as secretary. The exact date of the dedication will be decided in a few days. It probably will be Monday, April 15. The Jones statue is the work of Paul H. Nicholas of New York. Congress appropriated \$50,000 for the memorial. The commission is now considering the question of the inscriptions to be placed on the statue.

SAYS FACTORS WILL REFINE

The Sugar Factors Company, Ltd., of Hawaii, which is a powerful organization of the Hawaiian sugar planters, and of which the California and Hawaiian Sugar Refining Company is a part, has decided to enter the Eastern refining trade. For years immense shipments of raw sugar have been made from Hawaii to the Atlantic Coast and have been sold in the open market there.

Now the Hawaiian growers are preparing to refine their own sugar on the Atlantic, as they do on the Pacific Coast. According to advices from Baltimore, the company has acquired twenty-five acres of land on the waterfront for a refinery site. Hawaii last year produced sugar to the value of nearly \$37,000,000, and the sugar planters there apparently are intent on becoming an important factor in making the Atlantic Coast market. The sugar production in Hawaii doubles every few years.—Los Angeles Commercial Bulletin.

AFTERMATH OF KUKAIAU CASE

As was predicted in the Bulletin, further complications have arisen as an aftermath of the case in which Robert Hogner filed a writ of mandamus against the Kukuaia plantation and Albert Horner, its president, calling for the annual meeting to be held.

Word has been received in town that the plantation has filed a suit against Robert Horner for \$50,000, which is claimed as damages due through neglect on the part of the defendant during the time he has been manager of the Kukuaia stock ranch. The filing of this suit has been expected for some time past.

OLOWALU REPORTS SHOW GOOD SEASON

Reports made at the annual meeting of the Olowalu Sugar Company yesterday in the offices of C. Brewer & Co. showed a good crop, with expectations of an equal crop this year, and it was decided to keep up the policy of 2 per cent. dividends. The crop last year was 1700 tons, and yielded a net profit of \$25,218. Olowalu did not play in good luck, as far as arrivals of its sugar at the market were concerned, and didn't get as much benefit as some other plantations from the year's high prices. The officers and directors were selected, as follows: W. G. Irwin, president; R. Ivers, vice-president; H. M. Whitney, treasurer; E. I. Spaulding, secretary; E. Faxon Bishop, W. L. Hopper.

ZENO K. MEYERS IS NAMED PROMOTION HEAD

Zeno K. Meyers now heads the Promotion Committee, the change being made at the meeting of the committee yesterday afternoon. D. P. R. Isenberg, who has been acting chairman in place of W. H. Hodge, leaves for the mainland today on the Siberia.

Mr. Isenberg is also treasurer of the 1912 Floral Parade, and this office was turned over to R. von Damm, together with \$2000 which Mr. Isenberg has collected for the Floral Parade fund. The committee decided to pay the cost of reproducing Floral Parade posters and postals from the fund.

HOUSE PASSES STEEL BILL BUT TAFT IS PRETTY SURE TO VETO

BY C. S. ALBERT.
(Special Bulletin Correspondent.)
WASHINGTON, D. C., Feb. 1.—The bill revising the Steel schedule of the Payne-Adams tariff act is now up to the Senate. The House passed the measure after brief debate and a general wrangle. The Senate will do the same after weeks of solemn discussion and all kinds of bitter warfare. A combination of progressive Republicans and Democrats must be arranged to make the action possible. The same course will be followed as prevailed when the wool and cotton bills were passed last summer.

President Taft has already announced that he will veto the Steel revision bill when it comes to him for approval. He made this declaration to Representatives Payne, Dalzell and McCall, all Republican war-horses and Priests of High Protection. He informed them that no measure not

the long and short speech. He made a minute mental examination of the Duke, but did not indicate the impressions derived therefrom.

Army To Participate.

Preparations are already being made by the United States Army for participation in the Olympic games at Stockholm, Sweden, next July. Five officers have been assigned to prepare for the trip, though the Army team probably will be composed of only four. Those selected are Capt. Guy V. Henry, cavalry; First Lieut. Ben Lear, Jr., 15th Cavalry; John C. Montgomery, 7th Cavalry; Ephraim F. Graham, 15th Cavalry, and Second Lieut. Quekemyer, 5th Cavalry. Capt. Henry and Lieut. Graham were on the team which recently represented the Army at the horse show in London.

Four of these officers are at present at the Army Mounted Service School, at Fort Riley, and Lieut. Quekemyer has been ordered to that post from Honolulu.

The ultimate control of all shipping through the Panama Canal by the foreign "shipping trust" with chief benefit to big American shippers, like the United States Steel Corporation

**To Be On Time With
The Bulletin's 1912 Industrial Edition**

A News Edition from the Duplex Press of

**American-Hawaii
People and Industries**

**Will be Ready for Distribution on Floral Parade Day,
February 22nd**

The edition will contain over eighty pages of valuable industrial and commercial information, accurate statistics, distinctive illustrations, and many interesting personal sketches about some of the scientific sugar producers of Hawaii, as well as of other constructive men engaged in the businesses and industries of the Islands.

NEWS EDITION, FIVE CENTS

The News Edition will sell at the regular newspaper price of five cents a copy. It will be on sale through the newsboys and usual sales mediums.

BOOK PRESS ISSUE

The Book Press Issue for filling special orders will be out at a later date. The contents of both issues will be the same. The only difference is between the book presswork and that of the news press, which provides the speed needed to get the large edition out on the date for which it has been advertised. ONLY A LIMITED NUMBER WILL BE PRINTED.

PLACE YOUR ORDERS NOW—THE EDITION WILL BE OUT ON FLORAL PARADE DAY AND WILL CONTAIN THE NEWS FEATURES OF THAT EVENT—NEWS EDITION FIVE CENTS.

Paying for a Reputation

"Why pay for the reputation that any article has?" say some purchasers.

Because the reputation that his trade-mark has is the most valuable asset of many a manufacturer. He can't afford to risk that reputation by selling you inferior goods. That's why we handle the Kodak line in our photographic department. The Kodak company cannot afford to put out an inferior article.

We sell KODAK FILM exclusively because it is properly orthochromatic—because it is the dependable film. Greatest speed, greatest certainty of good results.

We have the size to fit your camera.
